We bring our lament to You  
**C G C**  
This world loves lies and hates the truth  
**C Fmaj7 Am**  
Throne rooms won't let Your kingdom come  
**C G C**  
Governments won't let Your will be done

**Fmaj7 C**  
*Oh Jesus, your name's abused*  
**Fmaj7 C**  
*Though the nations belong to You*  
**Am Fmaj7**  
*Lord have mercy on us all*  
**C G C**  
*Give us the ears to hear your call*

We bring our lament to You  
We have not done what You asked us to  
Where are the tears that we should shed  
Have we forgotten Your blood ran red

*Oh Jesus, our shepherd true*  
*We have wandered away from You*  
*Show us how far we have strayed*  
*Help us return to you again*

We bring our lament to You  
Complete the work You started to do  
And make us spotless for Your Son  
The Spirit and the bride say "Come"

*Oh Jesus, our grace and truth*  
*We will one day be wed to You*  
*May we truly know your grace*  
*Helping us run to finish the race*
